CROSS EVENTS · FOR CHURCHES

# Church events, without the admin.

Registrations, payments, tickets and check-in in one place, with kids check-in, volunteer rosters, reports and AI helpers built in. Your team spends less time on spreadsheets and more time with people.

**One month free**
Every feature, no card, no commitment

**Founding churches save 35%**
For as long as you stay with us

FEATURES

# Everything an event needs, from the first registration to the last report

Built around how churches really run events: Sunday-morning simple for your congregation, thorough for the team behind the scenes.

### Registrations and payments

Ticket options, early-bird prices, coupons and bundles. People pay online by card or instant EFT through Yoco or PayFast, or at the door; donations and sponsored places are handled too.

### Tickets and check-in

Every ticket has a QR code. Your team checks people in with a phone, sells at the door, and gets an attendance register without any paperwork.

### Multi-day events and courses

Conferences, camps and courses with sessions. People can pick the days they'll attend, and you get attendance per session and certificates at the end.

### Kids check-in

Families check children in to their rooms and receive a pickup code, so children only go home with the right person. Leaders see who is in their room.

### Volunteer rosters

Serving roles per event or session. Volunteers sign up, swap shifts among themselves and check in when they arrive.

### Series and season passes

Run a monthly breakfast or a yearly camp as a series. Followers hear when the next one opens, and a season pass registers someone for every event in one checkout.

### Email and WhatsApp

Message everyone registered for an event, schedule reminders, and send automatic confirmations, tickets and payment links.

### Reports and cash-up

Finance, profit, attendance and registration reports, plus a cash-up that reconciles cash, card and online payments per event. Export to Excel or PDF.

### Multiple campuses

One system for every campus, with events, reports and staff access per campus, and church-wide events when you need them.

### POPIA toolkit

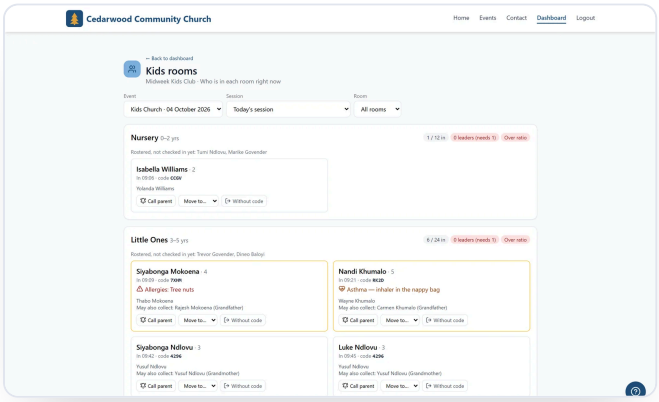

A built-in privacy notice, consent and access logs, data requests and retention rules, to help your church look after people's information.

### AI helpers

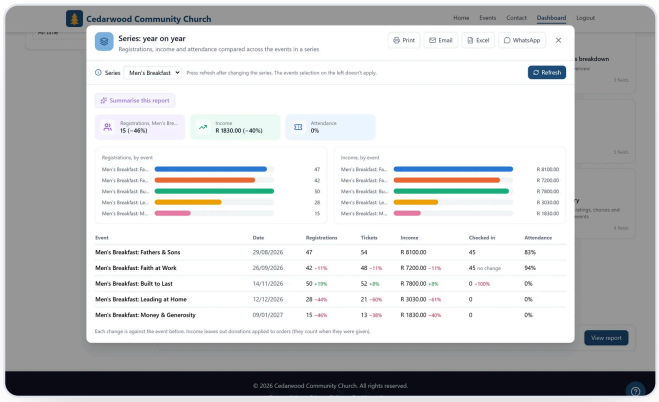

Draft an event from a few notes, turn a short note into a friendly message, summarise a report or event feedback, and polish text. You check every suggestion first.

### Feedback after events

Send a short feedback form after an event and see ratings, choices and comments, compared across events.

**Kids check-in.** Rooms, children checked in and pickup codes.

**Reports.** Finance, attendance and registrations, ready to export.

LICENCES

# Priced by the size of your events

Every church gets every feature. What you pay depends on your event income over the last 12 months, so a small church pays a small-church price. Pay yearly and get 2 months free.

### Founding churches: 35% off for as long as you stay

The first 10 churches to join, or everyone who joins by 30 June 2027 if that comes first, pay 35% less on any tier for as long as their subscription carries on without a break. If your church grows into a bigger tier, the 35% comes with you.

### One month free

Try everything for a month, free. We set up your site and help you run a real event. No card and no commitment: if you don't continue, your site becomes read-only so you can export everything, and we delete it after 30 days.

| TIER | EVENT INCOME, LAST 12 MONTHS | MONTHLY | YEARLY | FOUNDING CHURCH |
|---|---|---|---|---|
| **Seed** | Up to R50 000 | **R350** / month | R3 500 | **R230** / month or R2 300 a year |
| **Sprout** | R50 001 – R150 000 | **R550** / month | R5 500 | **R360** / month or R3 600 a year |
| **Grow** | R150 001 – R400 000 | **R850** / month | R8 500 | **R550** / month or R5 500 a year |
| **Flourish** | R400 001 – R1 000 000 | **R1 350** / month | R13 500 | **R880** / month or R8 800 a year |
| **Harvest**<br>Priority support | R1 000 001 – R2 500 000 | **R2 100** / month | R21 000 | **R1 370** / month or R13 700 a year |
| **Abundance**<br>Priority support + one event standby a year | R2 500 001 – R5 000 000 | **R3 200** / month | R32 000 | **R2 080** / month or R20 800 a year |
| **Movement**<br>Its own server + one event standby a year | R5 000 001 – R10 000 000 | **R4 800** / month | R48 000 | **R3 120** / month or R31 200 a year |
| **Network**<br>Its own server, standby and a plan made with you | Over R10 000 000 | **From R7 500** | Ask us | **35% off** |

- ✓ Your tier is based on your event income over the last 12 months: tickets and other payments through Cross Events, less refunds.
- ✓ New churches start on the tier for last year's events, from your own estimate.
- ✓ Donations and sponsored places are never counted, so generosity never costs you more.
- ✓ We check it once a year when your licence renews, never in the middle of the year. If your income has dropped, you move down.

Prices in South African rand. Online payment providers (Yoco, PayFast) charge their own transaction fees, paid by your church directly to them. Prices valid from November 2026 and may change; a church's price is confirmed in writing when it signs up.

EVERY LICENCE INCLUDES

# One price, everything in it

- **Every feature**
  Kids check-in, volunteer rosters, campuses, reports, the POPIA toolkit: nothing is held back for a bigger tier.
- **R20 of AI use every month**
  The AI helpers are included in your subscription: there's no extra charge for the monthly R20 AI allowance.
- **Support by email and WhatsApp**
  Questions and problems go straight to us, by email or WhatsApp.
- **Standby for big events**
  Ask well in advance and we can be on standby during a major event (Abundance and up include one a year).
- **Set-up and onboarding**
  We set up your Cross Events site and help your team get started.
- **Updates**
  New versions are released regularly, and you choose when your site updates.
- **Your own site and database**
  Your information is never mixed with another church's, which helps with POPIA.

HOW IT WORKS

1

### Your own site

Your own Cross Events site and database, with your name, logo and colours.

2

### Set-up and onboarding

We set up payments, email and WhatsApp with you and show your team how it works.

3

### Run your events

Your congregation registers and pays online; check-in happens on a phone.

4

### Updates when you're ready

New versions come regularly. You see what's new and choose when to update.

COMING LATER

### Church website

A website for your church that's easy to keep up to date, designed to work with Cross Events.

### Church web app

An app for your congregation at your own address, like app.yourchurch.co.za. People add it to their home screen; no app store needed.

**15% / 25%**

off when you take two, or all three, products together

## Start your free month

Tell us about your church and the events you run. We'll set up your site, confirm your tier and help you run your first event.
